We believe we have rights to the dies in question for multiple reasons. 1) The image on our medallion is a proprietary, licensed image owned by us and not by NWTM. We have exclusive rights to this image and it may not legally be passed on or used by any other party. 2) Our trade name and byline are part of the front and back of medallion design and may not legally be used by any other party. 3) Because of our legal rights to the image, trade name and byline the dies may not be sold to any other party by the Trustee; nor do the dies have any functional value to any party other than Global Music Awards. 5) Since we fully paid for design, tooling and exclusive use of the dies in the beginning, it would be unfair, unethical and inequitable on the part of the Trustee to create a situation in which we would be forced to pay for the dies and use of the dies a second time. 6) Holding the dies hostage for a second sale by the Trustee has been and is very disruptive for the flow of our business and will soon result in a financial loss because of our inability to resupply our inventory of medallions.

We respectfully request that the Trustee promptly send the dies and all associated materials related to the dies including bas-relief sculptures, trim tools and any remaining samples of struck and specimen medallions to Global Music Awards at the address listed below.

Sincerely,

Thomas Baker, Ph.D
